Subject: 2021 NAC Fall Virtual Meeting Public Comment

As Executive Director of a nonprofit organization serving NHPIs here in Utah, I'd like to reach out to express our appreciation to the Census Bureau for the very important decision on the American Community Survey...which will have a huge impact on our NHPI communities here in UT and all AANHPI and AIAN populations going forward. Your decision and investment in our communities is not only highly welcomed, but will be fully supported with coordination and collaboration within our communities in states with large AANHPI communities!

Thank you for all you do!!
